The Standard
AND RIVER PLATE NEWS.

No. 2,295—Ninth Year.] BUENOS AYRES, FRIDAY, OCTOBER 15, 1869. [Circulation, 3,000.

MAUA BANK,
101—103 CALLE CANGALLO.

The Officer of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously covened under conditions established for such class of operations.

Fourth—Money is received in account current bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

P. P. Maua & Co.
M. A. de Freitas Amorim.

January 1st, 1868.

LOUDET,
PHOTOGRAPHER,
344—CALLE PIEDAD—344.
Mons. LOUDET,

Begs to inform the Public of Buenos Ayres and the Argentine Republic, that he continues to take Photographs for the Carte de Visite, full length, and in every other style.

Mons. Loudet visited the Great Exhibition of Paris in 1867, in order to make himself, thoroughly and practically acquainted with every improvement in the above important art; and, since his return from Europe, he has placed his Establishment on precisely the same footing as those of the first Photographers in Paris, London, and the principal cities of Europe. The Apparatus, has been selected from the most approved of these in the Paris Exhibition, several of the inventions having received Prize Medals, among which may be mentioned those of Dallmeyer, of Loudon, &c.

Voigtlander e Sohn. The saloons [in which may be included the Atelier] are handsomely furnished and commodious.

Mons. LOUDET feels the most perfect confidence in saying he can produce likenesses in every aspect, infinitely superior to those which have already met with such unbounded approbation from the distinguished Public of Buenos Ayres.

The Public are respectfully invited to inspect the Gallery. 98,fl6

LONDON AND RIVER PLATE BANK
(LIMITED.

CALLE DE LA PIEDAD,
(Corner of Calle de la Reconquista.)

Authorised Capital .....£2,000,000 sterling.

POSITION OF THE COMPANY, AGOSTO 15, 1868.
SUBSCRIBED CAPITAL:
Hard Dollars, 2,9-2,765 61.
No. of Policies, 2,812 | Securities, $f1,164,161,79

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital; THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

☞ Subscribers enrolled and all necessary information given at the Head Offices of the Company, 118, Calle Piedad, Buenos Ayres.

PALMAM QUI MERUIT FERAT.

PENEDOS VEGETABLE SYRUP.
THE MOST CERTAIN AND SPEEDY REMEDY EVER DISCOVERED FOR ALL DISORDERS OF THE CHEST,
ASTHMA AND CONSUMPTION.

No other diseases sweep away so many thousands as ASTHMA and CONSUMPTION, and not because of any want of means of checking them, on their first approach if those attacked would adopt proper remedies early, but, unfortunately, these are neglected, and recourse is not had until the disease is firmly established in the Lungs, from whence (until lately) Physicians had not discovered any means of dislodging it. Professor Penedo's Syrup supplies now that DESIDERATUM to sufferers, as the rapidly extending fame of this Preparation testifies it.

COLDS, PAIN IN THE CHEST, SHORTNESS OF BREATH, PHLEGM, AND INFLUENZA.

A difficulty of breathing, or a sense of tightness or pain in THE CHEST after exertion, a cough or an expectoration of phlegm, however slight at first, will surely prove the germ from which one or other fatal diseases will take their rise, if not early removed, in such cases,

PENEDO'S VEGETABLE SYRUP

must be taken three times a-day, as directed, or oftener, according to the urgency of the symptoms, and this will be found sufficient for the cure of all recent affections of the Lungs.

COUGHS.

This severe and most dangerous disease very frequently becomes most troublesome, which, if not ending in Consumption or Asthma, proves most distressing and weakening up to the patient.

PENEDO'S VEGETABLE SYRUP

should be taken until it is entirely removed, which it will speedily do if taken regularly.

WEAKNESS OF THE VOICE AND HOARSENESS.

In all cases where the diseases have occurred suddenly from Colds, exertion of the Voice, &c.

PENEDO'S VEGETAALE SYRUP

has been most successful in effecting a radical cure in cases which have existed many months.

PENEDO'S VEGETABLE SYRUP

is of the highest utility in all diseases of the Chest and Lungs. This fact is proved by the many testimonials handed to the Proprietor by men of acknowledged ability and reputation.

The following certificate is one of many that have been received by the Professor:—

Rio Janeiro, May 1, 1869.
Professor Penedo.

Dear Sir,

I feel bound to acknowledge the marvellous results effected by the Syrup, called

"VEGETABLE DE PENEDO,"

In the Province of Rio Grande, and it is, in my opinion, a most valuable medicine in all cases of Pulmonic Affections on Diseases of the Chest, many of my patients, who have had occasion to use your Specific for these complaints, have assured me that they invariably derived the greatest benefit.

GREEK COLLEGE.
(LITZMAN'S.)
CALLE TACUARI.

The Parents of the Pupils of the above College are requested to take Notice, that on the 15th of July the Direction of the above College will be undertaken by Mrs. C. Brenan and her sister, Miss Coletough, assisted by a large staff of competent Teachers, Mr. Brenan also giving it as much of his attention as will be possible, consistent with the duties of his and Mr. Mulcahy's English College for Young Gentlemen, 135 Calle Suipacha.

Mr. and Mrs. Litzsman's departure for Europe has been for some time deferred, owing to the difficulty of meeting with competent parties having the experience necessary to fill satisfactorily so responsible a position.

Mr. and Mrs. Litzman have now much pleasure in introducing and recommending the above parties, they having had for eight years one of the largest and most fashionably attended Boarding and Day School in Manchester.

ARGENTINE FINANCES.

When a ship captain in Buenos Ayres finds his vessel blown from her moorings, anchors slipped, and no trace of the missing barque to be had even at Maxwell's commercial rooms, his first dash is to a stable yard for a horse, to gallop after his missing vessel; and when a Finance Minister in this country finds his funds all blown out of the treasury, his first step is to the Bolsa. It has been long since established as a fixed rule in this land of a golden future that two and two make five, and that a cool calculating judgment is given men below for the purpose of blinding the brain to inevitable results; everything goes by "contrariety," and those who can best measure our "contrarieties" are those who invariably come off winners. In hard times there is but one step, from the Government house to the Bolsa; let that be set down as an established fact, and furthermore, when a Minister is most in want of money, he least requires it.

On Wednesday afternoon H. E. Dr. Gorostiaga, Argentine Minister of Finance, walked up that Jacob's ladder which leads to the Bolsa committee room, and with closed doors announced truths, yes, financial truths, which not only astounded the "camara sindical" above, but fairly asphyxiated all the bulls and bears below; to describe to our readers the breathless anxiety with which the brokers awaited the announcement of his Excellency's views would require indeed the pen of Dickens. A paper dollar might be heard falling in the hall when the beaming countenance of Charles Jackson emerged from the closed chambers; "Bonds are up" shouted the bulls, as they read the Jacksonian smile of our wealthy and distinguished fellow countryman. 'Bonds are down' grunted the bears, as they watched the sombre look of the chairman that most estimable of Irishmen, Mr. O'Shee. 'Bonds are nowhere,' clamored in the purely commission-brokers, as they scanned the Dutch profile of the unerring Maschwitz, but brokers with all their varied experience are poor physiognomists; children can with faultless precision read the human face, brokers cannot, and Lavater has few disciples on 'Change—bulls and bears had erred. The interview it is true was over, but the verdict had not been yet given, nor was there a man on 'Change who guessed it.

That Dr. Gorostiaga is a man of acknowledged ability, none who know anything of his political life can for one moment deny; but that he was such "a broth of a boy" as he has proved, few in the least supposed. In fact, so completely in the dark have we all been as to his very superior abilities, that we are willing to acknowledge him as the "Minister of the perio The result of the interview reflects such credit upon his tact, that time sales were done at an advance of one per cent. although both buyer and seller were mutually convinced that Bonds were going down. The true standard by which to measure the ability of our Minister is the result of the interview That result has, as regards the price of Bonds, proved favorable; 'ergo,' the Minister has won, and his victory over the brokers is enhanced by the fact, that the new Bonds are to be issued in the proper way, and not forced upon public creditors, at whatever rate Congress arbitrarily dictates. The Bonds will be issued to a willing public at that mellow figure of threescore and ten; nothing under. The quality of credit is not strained; it droppeth as the gentle gold from the treasury upon the clerks beneath: it blesseth him that takes, and him that gives. It is strongest in the weakest; it becomes the dubbed Minister better than his portfolio; currency doth then show likest gold when credit seasons progress.

The rise in the price of Bonds on Wednesday afternoon, is an unerring proof that the issue of new ds has increased our credit at home, no matter how it may affect us abroad, and the liberality of H.E. in issuing those securities, at such a figure as 70, establishes the fact, that there is no desire, on the part of the Minister, to corner the public, but a free and liberal policy to let all who wish to subscribe do so.

The Minister, it is said, in his interview with the 'Camara Sindical,' adverted to a letter which he had in his coat-pocket, from Sr. Riestra, stating that whatever funds the Government requires, can be with facility raised in Europe. This, after all, is the most satisfactory part of the interview, and as Sr. Riestra got ashore in the Baby on Wednesday at one o'clock, the Minister would have much added to the effect had he taken Sr. Riestra arm-in-arm to the Bolsa: *seeing is believing.* Had Sr. Riestra gone on 'Change, 'quien sabe' what figure Bonds would not have touched that afternoon. Verily, the Minister missed his spring. With what a feeling of relief would not the brokers have heard the honeyed words of Sr, Riestra fresh from Lombard-street, and only half-an-hour landed from that favorite steamer Arno. No sending the hat round to our native capitalists, with the 'Tribuna' in one hand, and Bonds at 70 in the other.

No remittances to be made to Europe next month to pay the coupons and amortization on the first of January in London, but gold bright happy beaming gold to come to us from abroad. Yet tis all but a dream at the best. New Bonds at 70 cannot be done here, and the sooner they are negotiated abroad the better, the credit this country enjoys in the exterior has never at any previous period been rivalled.

In Brazil the finances are at a low ebb, owing to the constant drain of gold to the River Plate, and the Minister at Rio, is meditating a new loan to carry on the war, to be negotiated in the Plate.

TRIP TO BRAZIL.

PRESENTATION AT COURT.

Democratic as we are in the River Plate in that land of milk and honey where Jack is as good as his master, when River Plate people scrape together a few dollars and start on a tour they become extremely aristocratic. A man for instance who has made his fortune in dry goods, when he goes abroad abhors anything savouring of Manchester; a salted hide merchant is most particularly anxious to steer clear of tanners. We read of our prosperous subscribers autumnalizing life at Homburg, Baden Baden, and Paris: and they are right, for they go for amusement and should not be reminded of the shop—but a travelling editor is entirely of a different kidney—his first place in foreign parts is a printing office, his colleagues (no matter what his home politics) welcome him, he is of the brotherhood, and in fact during my stay in Rio I discovered this, for if I had "Nil falsi audeam nil veri non audeam dicere" inscribed in large letters on the top of my hat, I could not have been more looked after and welcomed. The very day I landed in Rio the Diario of Rio struck off 13,000 boletins with the news per city of Brussels, which I gave the port doctor when he boarded us; sovereigns ran down and wax lights ran up; the whole city was illuminated for the glorious news brought by one of the editors of the STANDARD, who had arrived in *propria persona*; no wonder therefore that for the moment the travelling editor was at a premium and invited to the palace.

The compliment was so great and the opportunity so good that it required very little persuasion on the part of my friends to induce me to walk from the printing office to the throne, and the Emperor having graciously signified the day and the hour I made my arrangements.

On Friday afternoon at half-past five o'clock precisely, H. E. Conselheiro Braga, who is one of the judges of the highest court of Brazil, called at the Exchange Hotel to take me and my wife to the Palace. Whether it was the sight of the liveried coachman and footman, or the cocked hat and decorations of Sr. Braga, or the extraordinary style of myself I cannot say, but I felt pretty much as if I was going to be tried for having written a treasonable article against the Municipality, with the prospect of being banished for ten years to Bahia Blanca. On arriving at the palace of San Christobao, we were ushered up a grand staircase, and proceeding through a picture gallery, arrived at an ante-chamber, where we waited a few minutes.

Viscount —— entered, and ushered us into the presence chamber Sr. Braga first presented Mrs. Mulhall, and the noble Viscount presented the editor. His Majesty approached, commanded us to be seated, and commenced the conversation by enquiring of Mrs. Mulhall how she enjoyed her trip to Paraguay. After conversing for some time on the Paraguayan war and its prospects he changed the conversation to Buenos Ayres, and asked particularly after President Sarmiento, ex-President Mitre, Sr. Marmol, Gen. Urquiza, and in fact all the principal men of the Plate, seeming most anxious to learn about the Cordova Exhibition, what steps had been already taken, and when it would come off. His Majesty next spoke of the great foreign element in the River Plate, and the continued flow of emigration to Buenos Ayres, revealing his very intimate acquaintance with all that concerns the River Plate. The audience, which Mr. Braga had told us would only last ten minutes, stretched out to an hour and a half: the Emperor apparently never tiring in his enquiries about the Republic and its prospects, and having adverted to the River Plate Handbook, we asked permission to present his Majesty with a copy. As we mentioned our intention to visit Petropolis his Majesty enquired with whom we were going, when we replied with Sr. Basto. "Alfredo Basto," replied the Emperor, "why the very best man you could find in all Brazil for the trip, and mind that he takes you to Juiz de Fora," explaining the exact route we should take returning by the railway from Entre Rios.

So difficult is it to advert to an interview, and yet escape every imputation of breach of confidence, that we find it almost impossible to give our readers the full details of our long and interesting conversation with His Majesty. Are we at liberty to tell the public of all that was said about Mr. Madero and his port scheme, Mr. Green and his prosperous River Plate bank, Mr. Lanuz and his excellent and well managed Proveeduria, of Sr. Marmol and his poetry, of Sr. Martinez de Hoz and his Rural Society, of Don Meliton Souza who showed me over the arsenal, and of his Buenos Ayrean partner Mr. O'Shee, who like Messrs. Knabbe, Wells, Sir John Coghlon, and others, are known in Brazil even within the very precincts of the throne.

At 7.30 His Majesty rose stating that he had to proceed to the city, and commanding us to be presented to the Empress and Princess, we retired. We next proceeded to the drawing-room of the Empress, Mrs. Mulhall was presented by the Viscount, and I by Sr. Braga. The Empress requested us to approach, and be seated by the sofa; the Princess was delighted to see us, as we had seen the Prince at Pirayu; the Empress and Princess had both read the letters published in the 'Standard,' and took a lively interest in our travels in Paraguay. The audience lasted half an hour, after which we bowed, and retired.

The Emperor is a fine, tall, handsome man, about 44 years of age, and probably the best read man to-day in Brazil: his beard seems to be prematurely grey, but his countenance is fresh and hearty, abstemious in his living and regular in his habits: he bears more the stamp of care and hard work than anything else. As a literary man no monarch of the day stands higher. He is beloved and esteemed by his subjects, and every day of his life goes into the minutest details of the administration; nothing escapes his notice. The Empress is fat, fair, and forty; her expression beams with kindness, and the Princess resides with her Royal mother during the absence of the Count in Paraguay. Her Majesty in speaking of Lopez remarked, that notwithstanding all the stories published about the destitution of the Paraguayans and the numbers dying of starvation and Lopez being exhausted, he always had sufficient men to fight for him and to give the allies plenty of trouble, and Her Majesty plainly indicated that not half the stories coming from Paraguay could be relied on, which proved her sound judgment.

In the following week I was again presented at the Imperial Palace, by Señor Braga, when I delivered to the Emperor a splendidly-bound copy of the River Plate Handbook; but at this interview His Majesty received me standing: the ante-chamber was crowded with Ministers and others, and it was evidently a public reception day. His Majesty on hearing that we had been to Petropolis and Juiz de Fora, commanded us to go to Santos to see the San Paulo Railroad. Owing to the rain, however, during the week, we were prevented from making this trip.

Previous to our return by the Arno, I again called at the Palace to take leave, the Emperor received me in his state room and, requested me to be seated, His Majesty stated that he had looked through the Handbook with the greatest pleasure, and spoke of the splendid prospects of the Argentine Republic; this audience lasted for an hour and a quarter. His Majesty spoke on almost every topic connected with Brazil and the River Plate, dilated greatly on the last advices from Paraguay, and the resources of Lopez, which are by no means exhausted. His Majesty spoke on the slavery and land question at much length, and explained his views and graciously wishing me a pleasant voyage home to the Plate, I retired out. Thus ended my third interview with the Emperor of Brazil, who is indeed in every sense of the word a model Monarch, and United with his subjects in hoping that he may long be spared to rule over Brazil.

EMIGRATION TO SOUTH AMERICA.

We have seen with some surprise and regret in the column of the *London Despatch* the subjoined letter in reference to emigration to the Argentine Republic, and we need not comment upon the serious injury which it is calculated to cause to Buenos Ayres in the eyes of Englishmen. We cannot make a sweeping denial of the charges it contains, for there are some of them unhappily too well founded. But we think it is only fair when treating of so broad and general a question that the advantages and disadvantages be fairly balanced. Everybody who has lived in the River Plate for some years is inclined to regard it as a country that has good prospects and is peculiarly suitable for the surplus hard-working population of Europe. Many of our oldest English residents, after accumulating a sufficient fortune and retiring to England for a couple of years, still come back again to Buenos Ayres to spend the rest of their days here. No stronger proof can be given of the sympathy and kindly feeling that Englishmen have for the River Plate, especially those who have resided here longest and know the country best. We cannot at all agree with Capt. Burton in comparing South America to Central Africa however true his remark may be that Irishmen are the best class of colonists for the rural departments. Neither can we coincide in his opinion that such colonists must be always ready to do battle with "red Indians and treacherous Gauchos". The Irish sheep farmers hardly know what an Indian is, and as for the gauchos they are after all not so bad as one might expect in a country where a police force seems impossible. The Justices of Peace are for the most part very decent men, and if their authority sometimes appears lax it is the fault rather of the system than of the men themselves. If Capt. Burton had said "there is little or no "security for life or property in the "camp, owing to the want of police, "the facility of criminals escaping, and "the non-application of capital punishment,"—no one could conscientiously gainsay such a statement, but he might have also added "the inhabi-"tants are, for the most part very inof-"fensive, the advantages and disa-"dvantages in Buenos Ayres are pret-"ty much the same as in other new "countries, and the Government dis-"plays every anxiety to encourage "European settlers and advance indus try."

The letter in question is as follows—

In your "To Correspondents," recently you gave an account of an agency established in London to promote emigration to the Argentine Republic together with the inducements offered for that object, Of course, it is not likely that the statements made by such interested parties will be any other than rose-colour; and while I don't wish to say one word to prevent any man going there; if he thinks he can improve his position by doing so, I would like to call your attention to a letter recently published in the 'Field, newspaper, written by Captain Burton, F.R.G.S., the celebrated traveller, who has recently returned from South America. Captain Burton says:—"Some years ago a reverend gentleman called on me with a request to address a public meeting 'in re' the Oxford and Cambridge mission, then about to be established in South Central Africa. My reply was a consent, and a suggestion that he might wish to know what would be the tenor of such address. My reverend visitor seemed struck with the idea, and was more so when I told him that if the misionaries in question went single, it was suicide, if double, murder. Colonisation in the Argentine Republic lacks something of the fatalities which apportain to South Central Africa; on the other hand, it demands a peculiar species of man. This is my beau ideal of your colonist: Nationality, Irish (if possible); temperament, nervous-bilious; age 20 to 40; weight, 9st. to 10st;. stature 5ft. 8in. to 5ft. 10in. Agricola must be perfectly ready to turn once a year, or more often if required, his ploughshare into a sword. He must be quite ready to do battle, not only with the murderous red Indian and the treacherous and no less deadly Gaucho, but with a something worse—the Argentine magistrate, Juez de Paz, or any other placed there to protect him. And this evil will endure until his worship Judge Lynch shall exercise the 'jus fori' over the length and breadth of the land. I am disposed to think well of a "colonisation 'armée'" on the northern and southern frontiers of the Argentine Confederation. But I think well of it only as a system of garrisons where able-bodied men can work and fight, and perhaps lay the foundations of future fortunes". Thus far Captain Burton, whose testimony will, I think, not be questioned. You will, I think, be doing your readers a service if you publish this letter in your journal on the principle of 'audi alteram partem.'

A SUBSCRIBER.

THE CUÑAPIRU GOLD MINES

For those who take an interest in the welfare of the River Plate the arrival of Mr. Bankart with a troop of Cornwall miners, and a plant of the best and most adaptable machinery for quartz crushing, will be hailed as an event of no ordinary importance. Mr. Bankart, who founded the Cuñapiru Mining Co. in Montevideo, has had immense experience in the mining operations of various parts of the world, and the assayers of England have so fully borne out Mr. Bankart's views as to the value of the quartz which he took home from the Banda Oriental, that he states there will be no difficulty whatever in raising in England whatever funds the company may require to put up the machinery and set the works a-going.

Even Mr. Proudfoot, who has had such great experience in the Banda Oriental, testifies to the fact that for years past his house in Rio Grande has constantly bought pure Cuñapiru gold from the country people, and so convinced is he of the success of the enterprize that he has taken no less than £1,000 sterling in shares.

Gold quartz giving two ounces to the ton is considered by experienced miners as giving a very handsome profit, but the quartz from Cuñapiru has been closely investigated and valued, its yield is estimated at *sixty-two ounces per ton*, which is richer than than the best quartz ever found in Australia, New Zealand or California, some assayed 2,992 oz. and 6,512 oz. to the ton. The chance therefore now offers, and we trust it will not be permitted to slip, of creating a gold fever in this country, which according to Mr. Bankart's statement will lead to more important results than even in Australia or California.

That the gold exists at Cuñapiru there seems to be no question; the men, machinery and talent to develop the hidden riches of Cuñapiru are at hand. Gold is, and ever has been, the greatest and most powerful stimulus to immigration, and we believe, without exaggeration we may say the future of the Banda Oriental hangs on the success of Bankart's Quarts Company.

The yield of the great English Mining Company in Brazil is so splendid that hundreds are flocking to the neighbourhood; the shareholders of that Company have already received over one hundred per cent. dividend, and last month one solid piece of gold was found weighing over sixty pounds. Twice a month the gold comes to Rio, and the public which but a few years ago laughed and ridiculed the idea of starting this gold mining company, are now bewildered at its unlooked for success.

May we hope that the Cuñapiru mines will prove equally successful, although few in Buenos Ayres or Montevideo believe in the enterprize. Yet the auriferous deposits it is admitted exist, and must remain for ever hidden in the bowels of the earth but for the genius and enterprise of such men as Bankart.

The hope, the future, of the Banda Oriental depends upon Bankart and his 40 Cornwall miners; grant them but a little help and success, and we are on the eve of those great and sudden changes which people wildernesses and raise quagmires into nations.

The machinery now on the way out has been entirely constructed under the immediate supervision and direction of Mr. B., and consists of a battery of 36 heads of circular revolving stamps of 700lb. each for crushing and amalgamating the auriferous quartz, together with three puddling machines for washing the alluvial strata, all worked by steam The engine is horizontal and capable of working to 100 horse power. All classes of mining tools have been also sent out together with ½ a mile of tramroad and waggons for carrying the ore to the mill, in fact the whole is unique and complete in itself. It was all erected and worked under steam to 70 revolutions a minute in the foundry in Cornwall, and is the first made of this class in England. Upon its trial upwards of 70 leading engineers and mining agents were present to test it, and expressed themselves in the highest terms upon its complete efficiency for the purpose. Enormous transporting wheels 14ft. diameter of novel construction and invented by Mr B., have also been constructed to enable him to take the machinery and two large boilers 22ft. by 8ft. from Salto to the mines, they were worked and proved likely to supersede the present unsatisfactory waggons generally used abroad in the conveyance of machinery from one part to another. The buildings for the new machinery, hospital, and engineers residence have long since been made in England under Mr. Bankart's supervision, and sent out to Montevideo, and were supposed to have been in course of erection, but why they are not up is a question that will now have to be settled. What is now required is a little time and more capital to enable Mr. B. to place all upon the ground and develop the mines, for this purpose it is necessary to have a capital of £25,000 more, and if there is any difficulty in obtaining shareholders in the Plate to subscribe that amount, let them advance what they can, and after Mr. Bankart has inaugurated the work he shall at once proceed to England and obtain the balance. It will take at least nine months before the machinery can be set to work, but he feels confident that the time and money so spent will be amply repaid hereafter.

EDITOR'S TABLE.

The America arrived from Montevideo yesterday. We give in another column the latest intelligence from that city.

News has been received from the seat of war announcing that the allied army had moved from its encampment on the 9th. Lopez with his army had pitched his headquarters at a small village about sixteen leagues from San Joaquin. Fresh reports were here circulated to the effect that a number of his adherents had been shot by his orders, amongst them his mother and brother Venancio. Several field officers are also said to have been condemned to death, the cause assigned being their participation in a conspiracy against him. The Triumvirate Government has issued decrees fixing the value of coin throughout the Republic, and abolishing slavery within its limits. Any decisive forward movement against Lopez is not expected for a month or so, as it will take fully that time to put the Commissariat service into proper working order.

We regret much to hear that Don Eduardo Madero is seriously indisposed from a severe attack of 'grippe'; we trust that his indisposition will prove but of a temporary nature.

The greatest excitement ruled in Montevideo on Mr. Bankart's arrival; he was escorted to the office of the Cuñapiru mines by a crowd of friends where he found Mr. Daniels, who had just returned from the mines with a splendid sample of gold quartz, the finest and best yet seen. At present there are over one thousand miners at work at Cuñapiru, and such is the fever that bands of explorers are crossing the Banda Oriental at various points, all bound for Cuñapiru.

Owing to the very low state of the Parana, contractors and others find it impossible to get their ships and steamers up to Paraguay, and we hear that coal in Asuncion is worth eighty patacons per ton.

The Finance Minister had an interview with the Committee of the Bolsa on Wednesday afternoon, with the view of rendering explanations as to the new issue of bonds authorised by Congress. H. E. stated that according to the views of Sor Riestra there will not be the slightest difficulty in placing the loan on the Continental money market of Europe, at the price fixed 70 per cent. or perhaps higher Considering that the price of the Argentine Foreign Debt is at present 10 per cent. over this figurre in the London market, the Minister's views are in part justified. Sor. Gorostiaga also affirmed that in no case would the creditors of the Government be asked to take these bonds in payment of claims, but would in all cases be paid in cash. Sor. Gorostiarga made some minor statements of a reassuring character which had a beneficial effect on prices. A rise of one per cent. was at once established, and at the closing hour firmness was the prevailing characteristic of the market.

At the meeting of the Agricultural Society of New South Wales, Sydney, in May last, the first prize, class 205, for portable steam engine suitable to agricultural requirements, was awarded to the 12-horse power portable steam engine of Clayton and Shuttleworth, with enlarged fire box for burning wood, and otherwise adapted for agricultural purposes, to P. N. Russell & Co., Sydney.

We feel pleasure in noticing another testimony to the ability of Captain Sir E. Davis, K.C.S. of the Lujan which appears in the form of an address presented to him by the passengers who came down from Rosario in said steamer on Monday night, in the teeth of the hurricane prevailing. The address is signed by all the passengers, and bears witness to the coolness and skill shown by Sir E. Davis on the occasion.

Some interest is being excited in quarters interested as to the system of short hand that ought to be adopted in the National College, now, that it has been determined to establish a class for the imparting of this useful knowledge in that establishment. A treatise on this art by Mr. William Parody which seems to be but a literal translation of Pitman's system, has just appeared. It is very well drawn up, but we have heard considerable doubts expressed as to whether Pitman's is the best system for application to the Spanish language. We are led to believe that a 'brochure' proving the decided advantages of Arends system, by a gentleman who has had great experience in Europe in the teaching of shorthand, is now in the press and will shortly be published: The Government is we believe anxious to form a competent staff of shorthand reporters, whose services would be of great importance in the Cham-

bers, Law Courts etc, and for this reason great care should be exercised in determining the system on which they are to be trained.

A number of turfites are expected up from Montevideo to witness the race between Colfax and Gauchito. The coming event is creating much a furore amongst sporting men on the other side of the river as here, and we understand some heavy books have been made on it.

The late gales proved most disastrous to the shipping in the harbor of Montevideo. Three large vessels have gone down, a number of small boats lost, and great damage has been done to the wharves and landing stages. A sailor belonging to one of the wrecked vessels was drowned. It is feared that accounts from along the coast will prove the loss of shipping to be still greater. It is very creditable to the management of the Electric Telegraph Company that no injury whatever was done to the wires by the storm, a fact proving the energy and precaution exercised by Mr. Oldham; the communication was not interrupted even for a moment.

OUR LONDON CORRESPONDENT

London, 8th September 1869.

Gentlemen,

It is some time since I have had the pleasure of sending you any account of things in general here. I cannot see that commercial affairs are brisker, than they have been for the last three years since the Overend and Gurney collapse, and it is difficult to guess when there is likely to be a real improvement. There is always something turning up to interfere with a revival of commercial confidence, and now the great topic which is agitating the European Bourses to their centre —combined with a collapse of the speculating mania at Vienna—is the uncertain and somewhat disquieting condition of the Emperor Napoleon's health. This has of course been made the most of by alarmists, and very exaggerated rumours have been prevalent and greedily swallowed by the quidnunts, whilst on the other hand some people have run into the opposite extreme, and declared that the illness was nothing to speak of. The truth lies between these reports, and there can be no doubt that Napoleon has been very unwell. If there may have been just at one time cause for apprehension, the crisis soon passed, and he may now fairly be considered on the high road to convalescence. Looked at calmly it is not surprising that the Emperor at his mature age should have attacks of illness, (in fact the uniform good health of European Sovereigns for a long time past is matter for congratulation) and the world would do well to accustom itself to the idea of what must happen sometime in the course of nature, and be prepared for eventualities accordingly. I trust the Emperor's health may continue good for many years to come. That his life is of the utmost importance to Europe is clearly proved by the unreasoning panic into which his illness has thrown the Continental money markets.

Stagnation in trade is still unfortunately the order of the day. Money is very easy and likely to continue so. The Cotton Market is now flat after a temporary spurt, and appearances are against any material rise. Our harvest may now be considered as over, and the crops are well got in, if anything above an average on the whole. The weather has been all that could be desired for securing the cereals, but the improvements in agriculture and the facilities for importation render us more independent of our home supply, and we shall probably soon turn our attention more largely to the cultivation of pasture lands and raising stock.

The collapse of the Albert Life Assurance Company (a large concern which had absorbed nearly twenty smaller offices in as many years) has occasioned great consternation amongst the very numerous policy and shareholders and struck a heavy blow to the useful principle of Life Assurance. There are black sheep in every profession, and this is no exception to the rule, but when the excitement has subsided the public will doubtless look at the matter calmly, and be certain in future.

The long talked of International boat race is at last over. It was a splendid race, and the utmost fairness was shewn, so I am glad to say, our American cousins have nothing to complain of on that or any other score. Oxford rowed a waiting race for more than half the distance just astern of the Americans, and when the proper time came they drew ahead without much difficulty and won a most gallantly contested race by three or four lengths. The excitement was tremendous, and we are delighted at the Oxford victory. Of course, as one side must lose, our patriotism made us favour Oxford, but the Harvard's defeat was most honourable, and we must wish them better luck next time. The result was known in New York within twenty four minutes, and might have been twenty minutes sooner had not Northlake been nearly a mile from the Telegraph Station. So much for the Atlantic Telegraph!

There is nothing new in domestic matters. London is half empty of course at this season. The Queen, and the Prince of Wales are in Scotland, but the Princess of Wales is still taking the waters in Germany, where she is deriving much benefit from the change.

Yours &c.

ALPHA.

ROYAL MAIL STEAM PACKET COMPANY.

To the Editors of the 'Standard'

Gentlemen,

Will you oblige me by publishing the following alterations in the service of the Royal Mail Steam Packet Company viz.

In future the Home ships will continue their voyages to Buenos Aires, instead of transferring passengers, mails, and cargo to the 'Arno' in Rio; they are expected to arrive here about the 7th of each month and leave again the 11th or 15th for Southampton, calling at the same ports as heretofore. The passage will not exceed thirty days each way, most likely only about twenty eight. By this alteration the transfer and long detention in Rio de Janeiro will be avoided, which I am sure will give general satisfaction to the public.

I am

Gentlemen

Your obt. servant

CHARLES DREW,

Special Agent

Royal Mail Steam P. Company.

MISCELLANEOUS.

Lord Granard has written to advocate, as a solution of the Irish land question, the extension to the whole country of what is known as Ulster tenant-right. This tenant-right, it need hardly be stated, is not a matter of legal obligation, but consists in a "gracious custom," as it is termed, by which an outgoing tenant is allowed to sell the goodwill of his farm to the highest bidder, the sum realised being sometimes more than the value of the land in fee-simple. This custom has not been recognised in sales which have taken place under the Encumbered Estates Act, a circumstance which has given rise, in numerous cases to serious dissatisfaction.

A Hussite celebration was held at Pesth on Saturday. It was not, as had been expected, a demonstration against the clergy, but partook rather of a political, that is to say, an anti-German character. A letter was read from Garibaldi, expressing sympathy with the objects of the meeting.

Prince Karageorgewicz, who stands charged with complicity in the murder of Prince Michael of Servia, has been admitted to bail.

ON 'CHANGE.

October 14th, 1869.

Patacons	25.
Sovereigns	122¼.
Ounces	400
Nat. Bonds	60¾.
Bonds sold	146,000.

There was very little done on 'Change to-day, both bulls and bears hold back from the market anxious to watch outsiders. The sales cash only amounted to 3,000 at 60¾; and for the end of the month there were a few transactions at 61. Friday being the middle of the month the transactions for that date are very heavy, but the bulk of the business will necessarily stand over for the end of the month, when millions have to be arranged. There was much said about the Minister's interview yesterday with the Camara Sindical, but the sudden rise in stock yesterday when the result was known, proved after all a mere flash in the pan. Bonds are heavy, and the new emission even on the terms spoken of has shaken the confidence of the Bolsa. Money continues very abundant, and interest rates are without alteration; it is thought that next month interest will improve, and money be in better demand owing to the business in the Plazas, and the fact that the National Government will be obliged to remit to London £112,000 sterling to meet the coupons and amortization due on the bonds on January.

The wet weather has effectually stopped shearing. At one or two places, Mr. Newton's and others, shearing had begun, but the rain has stopped the shearers.

In the wool market there is a little more disposition on the part of buyers to accede to the demands of sellers, and some large lots of wool have changed hands within the last few days. M. Spearing, a barraquero in the South Plaza, was welcomed in the wool market back from Europe, and many believe that he has brought large orders for the new clip.

The loss and damage done the shipping in the harbour by the recent storm has as yet not been fully ascertained. The Dutch Consul calls for bids to get the Dutch brig Margarita afloat, aground opposite the Recoleta. The Norwegian ship captain who started on horseback after his vessel, found the missing Jupiter snugly at anchor in Carmelo.

The splendid run out of the new iron Aberdeen clipper "Luke Bruce," 46 days, was much spoken of. She comes consigned to Messrs. Darbyshire, Jordan, Co.; & returns to Liverpool, and will be ready to receive cargo in two days.

From Montevideo nothing of interest Paper at 88½; exchange the same. The steamers that went out to the Bank to look for the wrecked vessels have returned, found nothing.

Last sale in American hides 44rls., very little doing. Active business in sheepskins

In exchange nothing done; last quotation on Rio 42$000.

Respecting the Olazabal failure there is much said. It appears that the estate will give back a small dividend to the creditors.

TWO or THREE COLDS in succession will, with many constitutions, securely establish the seeds of Consumption in the system, thus converting what was originally a simple, curable affection, to one generally fatal. While ordinary prudence, therefore, makes it the business of every one to take care of a Cold until it is got rid of, unintelligent experience fortunately presents a remedy in Dr. D. Jayne's Expectorant. Sold by all Druggists.

HOME WASHERS. Just received. Pays for itself in the month. 76 San Martin.

MURRAY and LANMAN'S FLORIDA WATER, for thirty years the most celebrated of all perfumes on this side of the Atlantic, has been extensively counterfeited for this market by French and German chemists, and it is therefore necessary, in order to make sure of having the genuine article, to ask for the Florida Water made by Lanman and Kemp, New York, and to see that these names appear upon the label. All other so called Florida Water is manufactured from coarse pungent oils, and when the volatile element has evaporated, leaves behind a sickly, unwholesome odor.

ESTANCIA RINCON DEL CANGUE, PARTIDO OF PAYSANDU,

BANDA ORIENTAL.

NOTICE is hereby given, that upon the 23d day of September, 1869, I revoke the Power of Attorney given by me to Mr. Frederick Plowes of Buenos Ayres, on the 30th day of December, 1867.

And that from and after this 23d day of September, 1869, all Sales of Stock belonging to my late husband, Mr. William Plowes, or any sale or sales of the Estancia Land, made without my knowledge and consent, are illegal and void.

ANITA A. PLOWES,

Executrix of the late William Plowes.

60,6p,oct9

ESTATE OF W. PLOWES, ESQ.

DECEASED.

Whereas Mrs. Anne Appleyard Plowes, widow of the above, publishes to-day a Notice, styling herself first Executrix of her deceased husband, to the effect that she has revoked her Power of Attorney, made in my favor on December 30th, 1867, and that I cannot dispose of anything belonging to the Estancia Cannué, Paysandu, Banda Oriental.

This is to declare that Mrs. A. Plowes has certainly revoked such Deed, but that she is not first Executrix of her deceased husband. That the heiress of my deceased brother was my mother, the late Mrs. Lucy Plowes, of whom I and my brother, John Henry Plowes, are Executors, and for this purpose I hold Powers of Attorney from my brothers and sisters, to administer and dispose of my said mother's Property. That my late mother was legally declared heiress to my deceased brother, and that I am in possession of the estancia and effects as representative of my mother's heirs. That Mrs. Anne Appleyard Plowes has, therefore, no claim as next heir, but simply as legatee.

I regret that Mrs. A. Plowes should have published so uncalled-for a Notice, and I have therefore felt bound to make the above statement to my Friends and the Public.

Buenos Ayres, Oct. 9, 1869.

FREDERICK PLOWES.

78,6p,oct10

ESTATE OF THE LATE WILLIAM PLOWES, Esq.

I have neither been badly advised, nor have I intended to vex Mr. Frederick Plowes.

I have stated that, in my character as Executrix, I have revoked the Power of Attorney given by me, in December 1867, to Mr. Fred. Plowes.

I have not made, nor do I make, any claim, as Heiress, to the Estate of my late husband; but, since Mr. Frederick Plowes, holding my Power of Attorney, has refused to acknowledge claims which I consider unquestionable, I have deemed it my duty personally to resume the rights which belong to me by the will of my late husband.

I therefore again take upon myself the duties of Executrix previously referred to, in conjunction with Mr. Frederick Plowes, without entertaining any ill-feeling towards the said Gentleman.

With these remarks I desire to conclude any further public discussion.

ANA APPLEYARD DE PLOWES.

101,4p,oct14

GENERAL POST-OFFICE.

Mails for Montevideo, Brazil (via Rio de Janeiro and Europe (via Falmouth), will be despatched on Sunday, the 17th inst., per Steamship "City of Limerick."

Letters, &c., should be posted before Twelve o'Clock on said day, at the Central Post-office, and before Half-past Twelve at the Maritime Branch Office.

Buenos Ayres, October 12, 1869.

F. P. HANSEN, Secretary.

Radway's Remedies.

IN FRANCE.

EXTRACTS FROM THE PARIS PAPERS.

Of wonderful cures of Asiatic Cholera, Disentery Colics, Diarrhea, Cramps, Twenty drops of Radaway's Ready relief in a tumbler of the seine water and other drinking waters contraining large quantities of Chloride of Sodium, Magnesium, Limestone, and other diuretic and diarrhetic constituents, that runs through the system like quicksilver, causing the most painful discharges from the bowels and bladder, protects all who drink of these waters from pain, inconvenience, and continued draining, either from the bowels or urinary passages.

GREAT CURE OF

OVARIAN TUMOR OF TWELVE YEARS' GROWTH BY RADWAY'S SARSAPARILLIAN RESOLVENT.

Some weeks since trustworthy information was sent us of the marvelous cures effected by Radways Ready Relief, in Paris, of persons suffering painful discharges from the bowels and urinary passages, caused by the drinking of the Seine and other waters, and of Cholera, Diarrhea, Dysentery, Cramps, Colics, &c., and Diabetes Urinary Diarrhea, Weakness, Irritation, and Inflamation of the Bladder, by diluting 20 drops of Radway's Ready Relief in a tumbler of water. The Ready Relief used in this way proved not only a sure cure, stopping the most severe pain in from one to twenty minutes, but was found to be a more strengthening tonic, appetizing and delightfully refreshing beverage than the best French Brandies or Bitters. As a further evidence of the superior excellence of Dr. Radway's Remedies, and the wonderful success they are meeting with in France, especially Paris, the home of medical genius and the city of modern sciences, where the most eminent of American physicians go to complete their medical knowledge, we present the following unsolicited and freewill testimonial of the great curative virtues of Dr. Radway's Remedies, from the

CONSTITUTIONAL GAZETTE.

Published at 6 Rue Scribe, Paris, July 12, 1869.

It will be seen by this report that Radway's Remedie Relief has cured 'Asiatic Cholera.' Radway's Sarsaparillian resolvent, 'Cosumption and Scerofula.' Radway's Pill, 'the best purgative and corrector of the system.'

These simple medicines have out cured and achieved a complete conquest over the best medicinal skill in Paris, in fact of the world Dr. Radway would here state that the following testimonial was published with said newspaper, and the publication of the same in the Gazette he can only attribute to the sincere regards of the publishers for the 'Public Good'. The great success of these remedies in Paris, where our American doctors go to perfect themselves in medical knowledge, leave them very far in the rear. Radway's remedies beat the instructors of our medical men. Read the testimony.

THE EFFICACY OF ROOTS AND HERBS.

The march of experimental science, since the begining of the present century, is something astonishing. The great treasury of nature has been opened, and though we have but just put our hands on what lies under the lid, we have seen enough to infer what is below, and what is yet in store forus.

The dark ages wasted much time in strife and ignorance, and were still infants in the march of improvement, but better things are daily dawning upon us. Thus, to confine our attention to our walk of improvement in science, what strides have been made toward purifying our cities and improving our medical treatment. The Romans, it is true, had found the salutary virtues of water, and used it freely. But water is one (and a great one) amoung thousand sanitary powers that lie neglected at our feet.

We are just beginning to wake up to the fact that every root and grass at our feet has virtues beyond price. Yet the very dog and cat might have taught us the truth: and now civilized man has often to go to the savage to receive the secret of some wondrous power in a neglected herb.

Happy man to have reached a day when the sanguinary and poisonous phase of mineral drugging is nearly over. It is evident that a milder vegetarian materia medica will soon supersede it; and the remark of Napoleon I. to Dr. Corvisart: 'You have killed more men than I have,' will not be applicable to future leeches.

We have been led to these reflections by considering Dr. Radway's new and admirable discovery, which appears destined to supersede much of the misery and mischief caused by what has hitherto been called Medical Treatment. It would exceed our limit to expatiate on all that it has been proved to do; but we may add that ample experience has now shew that consumption and scrofula, even in agravated forms, give way before it, and that it has the rare power of disolving calculi.

Then, again, Radway's ready relief is sure cure for cholera, and stop the most violent pain, either internal or external, in from one to 20 minutes. Nor can the charge of imperfect testing be applied to it, for it was tried throughout the war, both as a preventive and cure of all mategnant and malarios fevers, dysentery, colds, and rheumatisme—and the resuls was marked success.

Then, again, Radway's Pill are a perfect boon to a large class of invalids, for they are both a purgative and corrective.

One of these pills used as a dinner pill insures a good digestion, and will cure dyspepsia.

We may add, for the interest of those in Europe ignorant of the matter:—

That the secret of Dr. Radway's Sarsaparillan Resolvent in curing Consumption and Scrofula, of disolving Tumors, Calculi, Stone Gall Stone—is its Resolving properties of melting away, so to speak, of hard substances; of its supplying the blood with the constituents of life, vigor, strength richness, and purity, and enabling this great source of life to hold in solution all its constituents. It is not an accidental discovery of simples, gathered at random by inexperienced persons, but a scientific combination of vegetable substances yielding great medicinal properties—culled from the vegetable kingdom by experienced botanists, and subjected to the tests of the most searching and powerful chemical analysis—and combined and associated so as to secure perfect harmony of the ingredients used, in accordance of their Pparmaceutical Equivalents; in fact, it is the most scientific combination of ingredients, possessing medicinal or remedial properties of the vegetable kingdom in vogue. Truly has Dr. Radway of New York given to the Old World in his Ready Relief and Sarsaparillian Resolvent the nucleus of a new system of medicine.

That it is entirely composed of Roots and Herbes.

That it is in such repute in America, that it has large laboratories in New York and at Montreal.

In short, it appears full time that the attention of Europe should be directed to this great advocate in medicinal treatment, which amounts to almost revolution, overthrowing the ancien regime of mineral poisons and violent purgatives.

OVARIAN TUMOR CURED.

Never has a medicine taken internally been known to have cured tumors either of the womb, uteri, ovaries, or bowels; the knife has been the sole reliance in the hands of experienced surgeons, but Dr. Radway's Sarsaparilian settles this question, for it has cured over Twenty Persons of Ovarian Cysts and Tumors, as well as Tumors in the Bowels, Uterus, Womb, Liver-Dropsical Effusion, Ascites, and Calculus Concretions. The known ingredientr of Dr. Radway's Resolvent were claimed by Sir Benjamin Brodie—used in their crude form, uncombined, to to possess the power of dissolving stone in the bladdder, and curing all irritations of the Bladder and Urinary Organs, of correcting and checking great and involuntary discharges of water, and now in the present improved and scientific combination of these ingredients in the Sarsaparillian Resolvent, it will more effectually cure and remove Tumors and all other hard substances.

It is called 'Resolvent,' for it discusses and melts away Tumors, Nodes, Hard Swellings, Lumps, Concretions in the Joints, Groin, Testes, Bladder, Kidneys, &c., and will save the patient the painful necessity of undergoing operations of the surgeon's knife.

The following letter or certificate of cure was received on the 20th day of July, 1869. The lady is unknown to us, but she is well known in Beverley, Mass.: those interested can write to her and make inquiries of her status of the select men of the town. We publish the letter at the lady's request:—

TUMOR OF 12 YEARS' GROWTH, CURED,

By Radways Resolvent.

Beverly, Mass., July 16 1869.

Dr. Radway—I have had Ovarian Tumor in the ovaries and bowels. All the doctors said—'there was no help for it. I tried everything that was recommended, but nothing helped me. I saw your Resolvent, and thought I would try but had no faith in it, because I had suffered for Twelve Years. I took six bottles of the Resolvent, one box of Radway's Pills, and used two bottles of your Ready Relief, and there is not the sign of a tumor to be seen or felt, and I feel better, smarter, and happier than I have for 12 years. The worst tumor was in the left side of the bowels, over the groin. I write this to you for the benefit of others. You can publish it if you choose.

From Two to Four p.m. daily the Animals will be on Exhibition at the

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Account Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maua & Co. in Montevideo has already provided for the working classes of the city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Maua & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned. Sundays an holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Maua & Co. is sufficiently known to the Public by the benefit derived from the extent of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Maua & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2d January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twelve thousand dollars currency, or one thousand dollars silver, the depositor, if he wished can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be renewed by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

P. P. Maua & Co.

PETER MÖLLER'S
(Knight of the Vasa Order.)
PUREST COD LIVER OIL,
Free from disagreeable Smell and Taste.

This celebrated Oil, which is made on an entirely new method, invented by Mr. Peter Möller, of Christiania, is now acknowledged by the Faculties and the most eminent Physicians of Europe, to be the best Cod Liver Oil known. It is the only one for which the following Exhibition Medals have been awarded, viz.:—1862 London International Exhibition—The only Medal.

1865 Bergen Royal Society of Norway—The only Gold Medal.

1866 Boulogne International Exhibition—The Great Silver Medal.

1867 Paris International Exhibition—The only Silver Medal, heading 27 competitors.

The fact that it is made under the immediate superintendence of Mr. Peter Möller, at his own Manufactories, at the Lofoten Islands, where it is bottled, sealed, and capsuled, as a guarantee, for its genuineness, as well as that it will keep in every climate for years without turning rancid. See Möller's Name and Trade Mark on Label.

BISHOP'S GRANULAR EFFERVESCENT CITRATE of MAGNESIA.
Introduced and prepared by
ALFRED BISHOP,
Manufacturing Chemist,
17 & 18 SPECK'S FIELDS, MILE END NEW TOWN, LONDON.

This perfectly white and delicately clean granulated preparation possesses remarkable effervescent qualities, and far surpasses the ordinary Seidlitz Powder in its cooling, refreshing and gold aperient properties, as well as in its flavour as a saline draught. It is peculiarly well adapted for women and young children on account of its most agreeable flavor and mild effect.

N.B. The genuine has the name of BISHOP upon the Bezle, also the Name and Trade Mark upon the Label, and is sold in convenient sizes, and secured in so perfect a manner that it may be shipped with safety to any part of the world.

Manufacturer also of Granulated and Effervescent Carbonate of Iron, Citrate of Iron Citrate of Quinine, Citrate of Quinine and Iron Carbonate of Lithia in Tubes, Carbonate of Lithia, Vichy Salt, Seidlitz Mixture, and all other Granulated Preparations.

IN CHANCERY.—CAUTION.—BISHOP'S GRANULAR EFFERVESCENT CITRATE OF MAGNESIA.—Mr. Bishop, having discovered that the Label which he has used for the last five years was being imitated, recently applied to the Court of Chancery for an Injunction to restrain such imitation. The Injunction was immediately granted, and the Defendant was ordered to pay all Mr. Bishop's Costs and destroy the Labels complained of.

Also BISHOP'S NEW REMEDY for SEA-SICKNESS, should be in the hands of every person travelling by Sea. 77,26p6,jly8

Pepsine, the active digestive principle of the gastric juice, an agreeable and popular remedy for weak digestion.

In Powder, Wine, Lozenges, and Globules.

Pancreatic Emulsion, and Pancreatine in Powder, containing active principle obtained from the Pancreas, by which the digestion and assimilation of fat is effected.

Saccharated Wheat Phosphates, a valuable dietetic preparation for Invalids and Children, supplying the elements for the formation of bone.

Chlorodyne (Morson's), the universally approved Anodyne.

Creasote—(Caution)—From Wood Tar, of which T. M. and Son are the only British Manufacturers.

Gelatine, a perfect and economical substitute Isinglass.

THE PERFECTION OF PREPARED COCOA
Maravilla Cocoa.
Sole Proprietors,
TAYLOR, BROTHERS, London.

The Cocoa [or Cacao] of Maravilla, is the true Theobroma of Linnæus. Cocoa is indigenous to South America, of which Maravilla is a favored portion. Taylor Brothers having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their soluble principle and elaborate machinery, produced what is no undeniably the perfection of prepared Cocoa, for it has not only secured the preference of homœopaths and cocoa-drinkers generally, but many who had hitherto not found any preparation to suit them, have, after one trial, adopted the Maravilla Cocoa as their constant beverage for breakfast, luncheon, &c.

"A SUCCESS UNPRECEDENTED,"
See following Extract from the 'Globe' of May 14, 1863:—

"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs. Taylor Brothers discovered the extraordinary quality of 'Maravilla' Cocoa. Adopting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For Homœopaths and invalids we could not recommend a more agreeable or valuable beverage.

Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate.

COUGHS, COLDS, RHEUMATISM DYSENTERY, AND FEVER.
The *Times*, of India, states "that the discovery of D. J. COLLIS BROWNE'S CHLORODYNE is a greater blessing to the human race than even the discovery of Vaccination." This remedy is invaluable in the above diseases and is indispensable to Emigrants, Travellers and Families, a few doses being generally sufficient.

Dr. J. COLLIS BROWNE'S CHLORODYNE.—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See *Lancet*, December 31, 1864.

Dr. J. COLLIS BROWNE'S CHLORODYNE.—Extract from *Medical Times*, January 12, 1866:—"Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not supply a want and fill a place."

Dr. J. COLLIS BROWNE'S CHLORODYNE is the most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, &c.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay:—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

It is necessary to warn the public against spurious imitations, which only bear the pirated name, and are deficient of the true properties of the only genuine, viz.:—Dr. J. COLLIS BROWNE'S, as was proved before Vice-Chancellor Sir W. P. Wood, in the Court of Chancery, in the case of Brown v. Freeman, when Dr. J. COLLIS BROWNE'S CHLORODYNE. Extract from the General Board of Health, London, as to its efficacy in Cholera:—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of using it in all cases."

The Vice-Chancellor stated "that the whole statement of Freeman was deliberately untrue, and he regretted to say it had been sworn to."

Sold in Bottles. 1s. 1½d., 2s. 9d., 4s. 6d., and 11s., by the Sole Manufacturer, J. T. Davenport, 32 Great Russell-street, Bloomsbury London.

REMATE
FOR
MIGUEL MAGALLANES
En Belgrano—De la bonita casa y jardin del Sr. Grutó.

El 24 del corriente a las 2 en punto de la tarde calle Tucuman No. 3 donde estará la vandéra, se rematará por órden terminante de su dueño a la hora indicada y a condiciones que se estipularán en el momento del remate; esta bien conocida propiedad en que su dueño no economizo gastos para hacerla un eden-casa recien empapelada, pisos nuevos de tablas compuesta de 8 piezas, cocheras, cocina, letrina etc. Mide su terrena 32 vs. a la calle Tucuman y 50 a la de Castelli y 89 mas o menos a la de Ituzaingo; como se ve con frente a 3 calles, su estenso jardin y arboleda frutal, el mejor se puede decir sin esajeracion en este pueblo por su distribucion y estencion, la variedad y valor en la arboleda frutal y de adorno con una gran cantidad de piés de parra, un buen molino para surtir de agua por medio de la bomba al gran deposito de esta, la que da abasto a las lindas fuentes que encierra el jardin con Kiocos y pisos de agua distribuidos en todo él, con una linda isla donde el buen gusto se ha consultado con la paturaleza del terreno. En suma es imposible detallar esta propiedad. A las personas de dinero les corresponde inspecionarla por si mismo, para lo que estará abierta todas las horas hábiles del dia, entonces veran que pueden de una propiedad que ha costado mucho dinero y tiempo talvez por una insignificante cantidad; agregando a esto el increible adelanto de este pueblo sin igual en la republica y llamado tal vez a lo que no me atrevo a bosilar.

El rematador oirá propuestas particulares hasta el dia del remate, el que encontrarán en su casa todos los dias Lunes y Viernes y dias de fiesta.

A BOUQUE

VIOLETS and WATER LILIES,
Exhale an exquisite fragrance, agreeable to the most fastidious, but in the Florida Water of Murray and Lanman, it is not to those two floral beauties alone that we are confined; in it we have the full fragrance of a whole bouquet of blooming tropic flowers.

MOSS-ROSE and JASMIN,
Exquisite in their odors, are yet poor by comparison with the clouds of incense that arise from Murray and Lanman's Florida Water, so justly styled "The Queen of Floral Perfumes."

ORANGE FLOWERS and HONEY-SUCKLE,
Delightful in the pure delicacy of their sweet breath, but faint and fading when compared with the refreshing and strengthening perfume of Murray and Lanman's Florida Water

PRIMROSES and HELIOTROPE,
Full of sweet perfume, and agreeable to many, but void of those important hygienic properties which make Murray and Lanman's Florida Water so welcome in the sick-room.

DAISIES and BUTTERCUPS,
Nature's every-day perfumes, exhaling floral incense familiar to us all, but from which we turn eagerly away to the more refined delicacy of fragrance of Murray and Lanman's Florida Water.

LAVENDER and MAGNIOLIAS,
Rich with heavy perfume, but not invigorating nor refreshing, and so sweet that the sense of smell soon cloys, and longs for the simple freshness of Murray and Lanman's Florida Water.

SWEET BRIAR and CLOVER BLOOM,
Bringing memories of country life, and exhaling a perfume pure and delicate, but lacking that uniformity and permanence, so marked a feature in Murray and Lanman's Florida Water

MIGNONETTE and DAFFODILS,
Of poetic celebrity, sweet and pleasant in the perfume, but still only the perfume of single flowers. In Murray and Lanman's Florida Water we have the combined fragrance of more than all these floral beauties. We have the unapproachable richness of the far-off tropic flowers made permanent, and giving justly to this exquisite Toilet-Water the title of

THE EVERLASTING PERFUME

☞ Purchasers should be careful to ask for the "Florida Water," prepared by "Lanman and Kemp," New York, who are the sole proprietors of the genuine perfume.

For Sale by all respectable Druggists, Perfumers, and Fancy Goods Dealers.

Thomas Charles Smith, Esq., Oxford Square, Hyde Park.
AUDITORS—
Richard Hoare, Esq. (Hoare, Miller, & Co),
Sir Thomas Fowell Buxton, Bart., M.P.
Sir Curtis Miranda Lampsord, Bart.

The Company insures against loss or Damage by Fire Private Dwelling-Houses Goods Deposited in Specific Warehouses of Stone or Brick, &c., &c.; and also issues "Floating Policies," extending to the Custom-House and all or any of the Private and Bonded Stores.

The whole advantages which can possibly be contemplated by those desiring to effect Fire Insurances, may be resolved into the following:

1st. Security

2nd. Honor and liberality on the part of the Company, in whose hands they place their interest; and

3rd. The purchase of these advantages at a moderate rate.

It will be found that all these are presented by this Company to the Public in an eminent degree.

The Company's large Capital, under the immediate management of the Directors of this Establishment, affords perfect security to the Assured, while it may confidently assert, from the Constitution of the Board of Direction, from the character of its present Members, and from the qualifications which will be deemed indispensable in their successors, that the highest honor and liberality will ever characterize all its transactions.

It has been the object of the Directors, in their minor arrangements, to afford every possible facility to those effecting Assurances with the Alliance, and the undersigned hold a Power of Attorney enabling them to settle at once any Losses that may occur from Fire, Lightning, or Explosions of Gas in Buildings, on or in which this Company has granted Assurances.

Any further information can be obtained on application to
GLOVER DARBISHIRE & CO.,
17 Calle Florida
